

Thomas Hue

General Engineer – Industrial Business Development

English: B2 - Spanish: B2

PROFESSIONAL EXPERIENCE

September 2026 – Present | Market Studies Apprentice – AIRBUS (Toulouse)

- Achievement: Market and customer needs analysis, contribution to business strategy and identification of new opportunities. Contribution to prospecting and promotion of our services.

September 2023 – September 2026: Site Manager Apprentice - SOBECA (Toulouse, France)

- Financial and operational management of energy transmission projects with customer relationship.
- Achievement: Developed technical skills in electrical networks, project management and organization (team scheduling, equipment planning, preparation and management of forecast budgets).

These three years allowed me to discover customer relationship management as well as the financial and operational aspects of construction projects (HV/LV/EV). I also discovered HR management and team supervision with diverse profiles. Project management requires rigorous management of budgets, teams and schedules.

May 2024 – July 2024: International experience in the hospitality industry (Da Nang, Vietnam)

- Manager of a team of three employees.
- Achievement: Waiter serving an international clientele (Americans, Chinese, Koreans, Russians), management and training of multidisciplinary temporary staff during periods of high tourist activity.

I gained experience in management in a new sector, after working with technical profiles on construction sites. I supervised more generalist profiles with different professional backgrounds. This experience strengthened my ability to adapt in order to achieve my objectives in diverse environments.

Education

September 2026 – September 2027

Advanced Master's Degree in Industrial Business Development for International Markets, INSA Toulouse (31)

September 2021 – June 2026

Diplôme d'ingénieur généraliste (cycle en apprentissage), ICAM Toulouse (31)
