EDUCATION

2026 – 2027	MSIAI – INSA Toulouse Specialized Master's Degree in International Industrial Business Engineering. <i>Ranked #1 in Technological & Industrial Management (Eduniversal)</i>		Toulouse, France
2025 – 2026	Universiti Kuala Lumpur Business School Exchange Semester – MBA courses.		Kuala Lumpur, Malaysia
2023 – 2026	INSA Toulouse Engineer Degree in Mechanical Engineering.		Toulouse, France
2021 – 2023	IUT GMP - TA Toulouse Degree in Mechanical and Manufacturing Engineering (DUT).		Toulouse, France

PROFESSIONAL EXPERIENCE

MEIA - Business Engineer's Export Missions Association

2026 – 2027 *International Business Engineer*

Toulouse, France

DERICHEBOURG AERONAUTICS SERVICES - Apprenticeship

2026 – 2027 *International Development Project Manager*

- Mapping business development opportunities across DAS international subsidiaries (US, Canada, Spain, India, China) and structuring associated commercial proposals.
- Defining and steering subsidiary support roadmaps through steering committees and KPI tracking, coordinating across DAS business units and international entities.

Toulouse/Blagnac, France

2025 – 2026 *Operational Manager – Manufacturing Engineering & Business Development*

- Supported a Unit Leader (120 staff) across Airbus programs; built from scratch an A350 non-conformity eradication activity (scope, workflow, staffing).
- Coordinated offshore operations with India (workload, deliverables, billing, technical alignment) and led an A320 ramp-up simulation project for client reporting.
- Contributed to cross-functional topics (invoicing, PRM/TRM reviews, HR & commercial) to support operational and financial performance.

2023 – 2024 *Manufacturing Engineering Project Manager*

- Led process improvement and digitalization projects within the A320 preparation team, developing and deploying an activity management interface to structure workload, deadlines and responsibilities.
- Drove Lean initiatives (standardization, visual management, KPI follow-up) to improve visibility on engineering activities and reduce delays on the preparation perimeter.

2022 – 2023 *Aeronautical MOD & Project Preparer*

- Prepared and implemented design modifications (MOD) on the engine pylon assembly line, ensuring industrial feasibility and coordination with production teams.
- Supported ramp-up and tool duplication projects, contributing to the reindustrialization of new assembly processes and validation of manufacturing plans and instructions.

2021 **Restaurant & Bar**

Waiter – Seasonal position

Canet-en-Roussillon, France

EXTRACURRICULAR ACTIVITIES

2025	Machine Learning Specialization – DeepLearning.AI/Stanford University (Coursera online) <i>taught by Andrew Ng, Stanford Professor</i>
2023 – 2026	Skydiving (A-License), Paragliding (Level 1), Scuba Diving (Level 2)
2018	BIA – Aeronautical Initiation Certificate With high honors.

SKILLS, LANGUAGES & INTERESTS

Languages: French (native), English (Fluent, TOEIC 850/990), Chinese Mandarin (HSK1-HSK2).

IT Skills: CATIA, 3DX, Abaqus, Ansys Fluent (FEM & CFD basics), Python, SAP, AIRINA, AIRBUS ECM, Excel, Google Workspace.

Interests: Aerial & Diving Sports, Competitive Team Sports (Basketball, Boxe), Hiking, Piano & Guitar, International Travels.
